Mrs. H. E. Flood and children, of Needles, passed the Fourth in Kingman.

The summer rains are on hand and a cloudburst of great severity may be looked for.

Arthur Edwards and wife, of Needles, visited with relatives in Kingman during the Fourth.

James Uncapher, the Mineral Park mining man, is in town, having come over to take in the festivities.

Miss Irene Garrahrant, of Fort Worth, Texas, a niece of A. H. Smith, of the MINER, is visiting in Kingman.

Charley Butler, who owns valuable mining property on Bill Williams Fork, is spending the week in Kingman.

Capt. I. C. Conkey, who has been in the California hospital the past month, returned home Wednesday last, much improved in health.

J. W. Morgan, who went to Los Angeles last week, returned home on yesterday's train. He left his little boy in school in that city.

A. L. McKesson has struck water in his gold mine, five miles south of Kingman, at a depth of 35 feet. The ore body has increased in size and richness.

Several hundred head of cattle are being shipped from Hackberry this week, which accounts for the boys not showing up during the Fourth of July festivities.

An informal meeting of the members of the local lodge of Elks is called for this evening at the lodge room. All members are requested to be present.

Miss Bessie Carrow won the prize at the carnival ball by a representation of a 49er. The character was good and the young lady is to be complimented on her adaptation of the old prospector's costume.

The trouble in Cananea copper camp is still brewing and it is probable that something will be doing there. Mining men are now looking for investment in the United States, where this sort of trouble never occurs. Mohave county offers inducement to mining investors.

A woman attempting to start a fire in a gasoline stove on the evening of the third at Wickenburg, caused a loss of the main part of town and thousands of dollars in property. No insurance is carried in the town and the loss to business men will be greatly felt.

Dr. A. B. Royal and son, of Pasadena, arrived in Kingman a few days ago. Dr. Royal spent the Fourth last year and considers it a good place for enjoyment. He and son are about to sink a fifty foot shaft on their property in the Todd Basin section and will leave for that place in a few days.

On the morning of the 11th the southern California Elks will pass through Kingman on their way to Denver. They will have a special train and will be joined here by several of the local lodge. E. F. Thompson and wife, and John Mulligan, representative of the lodge are to go out with the herd. It is proposed to give the visitors a treat of some kind during their hour's stay at this station.

For County Treasurer.

I hereby announce myself as a candidate for Treasurer of Mohave county subject to the endorsement of the Democratic nominating convention.
SAMUEL WITHERS.
Kingman, May 24, 1906.

Baseball Players and Foot Racers.

Louis J. Kruger, ex-champion long distance foot racer of Germany and Holland, writes, Oct. 27th, 1901: "During my training of eight weeks' foot races at Salt Lake City, in April last, I used Ballard's Snow Liniment to my greatest satisfaction. Therefore, I highly recommend Snow Liniment to all who are troubled with sprains, bruises or rheumatism." 25c, 50c, 1.00\$ bottle. Sold by Watkins Drugstore.

Mrs. G. S. Briggs of Needles, is visiting with her parents in Kingman.

W. C. Howard, of the Boulevard Mining company, is in Los Angeles on a visit to his family.

Mrs. F. S. Dennis and two daughters arrived from Palo Alto, last Sunday morning and will spend the summer vacation here.

It is understood that work will be started up on the Esmeralda mine in a few weeks. This mine is in the Cerbat section and has produced some good ore.

Ambrose Stewart and Miss M. MacDonald, of Denver, Colorado, were united in marriage by Probate Judge Charles Metcalfe last Thursday evening. The couple left for home on the night train.

Donald Metcalfe returned from Berkely, California, last Wednesday morning. He says he got all the earthquake he wanted during the seismic disturbance last April and wants to stay in Arizona hereafter.

The Colorado river is rapidly falling and all danger to the Needles section is practically past. Had the river risen a few feet more it would have swept everything along the flats away. A number of Indian huts were carried away by the caving of the river banks and the encroachment on the California side is quite noticeable.

This fall and winter promises great things for the San Francisco mining district. The mines of that section are in a state of development that warrant the owners doing a large amount of work on them and many of the owning companies that are unable to handle them will give other and larger capitalized concerns a chance to take them over.

The board of equalization is in session and it is probable that many assessments will be boosted to quite an extent. It has always been our opinion that the proper way to boom a county was to cut down its tax levy and the only way to do this is to make a high valuation of property. At the present time property has a low valuation placed against it and if increased to the proper amount the tax levy will be materially lessened.

Attorney General Moody has authorized the commencement of an action against the Santa Fe and a number of other railroads for failure to properly maintain their safety appliances under the U. S. law. The Salt Lake road was the first one sued under this law and now the Santa Fe, Rock Island, Denver and Rio Grande, and many other roads are to be prosecuted. The officials of the road claim that they have adopted every safety appliance under the law and have maintained them in a high state of efficiency.

That 30,000 acres of land which Cannon, Beveridge and Roosevelt offer us a bribe for the sale of our birth right is composed of waterless plains and verdureless mountains. The whole thereof could not be sold for one cent per acre. Yet the disjointed organs of the joint statehood cause are shouting themselves hoarse about the stupendous land gift we will find in the statehood prize package. Both outfits must regard us Arizonans as an unsophisticated lot of frontier innocents upon whom they can work the rancid bunco games without fear of detection.—Florence Blade.

The following letters remain uncalled for in the Kingman postoffice: Ernest Campbell, Westley Jackson, C. H. Whitfield, George Yoder.

Maj. A. J. Pickrell arrived in Kingman last evening and is looking over the Bimetal mine today. Maj. Pickrell recently made an important strike in one of his mines in Yavapai county and is sure to make a snug fortune. The Bi-Metal is looking fine and if developed and properly equipped ought to become one of the greatest producers in the territory.

Beginning with the first of July the mail to Signal will leave Kingman on Monday and Thursday of each week, returning Wednesdays and Saturdays. J. W. Cummings has the contract and will carry passengers and express. The change of the route from Hackberry to Kingman will be of great convenience to people living this side of the Sandy, as it will pass by Wallapai Springs and the Enterprise mine. The fact of the passengers being able to get out on this stage will also be an improvement over the old line, as the mail will leave here early in the morning and get to Owen before night. From Owen the mail goes to Signal and return the same day.

Under the order of the Attorney General of the territory Mohave county will hereafter discontinue the issuance of warrants on the expense fund when there is no money in that fund to meet the obligation. This is in accord with the law. Heretofore warrants were issued on this fund and sold by the holders at a big discount. Under the present arrangement the old warrant will be allowed to stand out and payment will be made in cash on account of current expense. At present there is not enough money in the treasury to cover the expense for the last quarter, but this will be remedied before the end of the next quarter, which will put the county on a cash basis.

Croup.

Is a violent inflammation of the mucous membrane of the wind pipe, which sometimes extends to the larynx and bronchial tubes; and is one of the most dangerous diseases of children. It almost always comes on in the night. Give frequent small doses of Ballard's Horehound Syrup and apply Ballard's Snow Liniment externally to the throat. 25c, 50c, 1.00\$. Sold by Watkins Drugstore.

TAX NOTICE.

Assessment Roll Now Ready.

OFFICE OF THE
BOARD OF SUPERVISORS OF MOHAVE COUNTY, ARIZONA.
KINGMAN, June 18th, 1906.

Notice is hereby given that the assessor of Mohave county has this day delivered to the Clerk of the Board of Supervisors the Assessment Roll for the year of 1906, and it is now open for inspection at the office of said Board in the Court House at Kingman.

The Board of Supervisors of Mohave County will convene as a Board of Equalization, on the second day of July, 1906, at the hour of 10 a. m., to equalize said assessment roll and remain in session from time to time as provided by law until the business of equalization is completed.

THOS. MCNEELY,
Clerk.

Mine Warning Notice.

To Whom It May Concern:
Notice is hereby given that the property generally known as the Elkhart mines, and situated in Wallapai mining district, Mohave county, Arizona, is under bond to parties working the same, and that neither the mine nor the owner thereof will be responsible for any labor or debt contracted, nor injuries sustained by any employer or employee in working said property; and that no employer or employee is the agent of the owner for any purpose, and that all operatives engage in such service at their own risk, and that no debt or claim of debt is valid against said mining claim or its owner.
